Project Information

- Taste of bihar app

Report Distribution

- Maaz Ashraf maaz@bitmaxgroup.com
- Amit Kumar amit.kumar@bitmaxgroup.com

Tasks Completed

1. • Added 6 email IDs in the Google Play Console for Closed Testing and installed the app on testing devices using these accounts.
2. • The Closed Testing phase for the Taste of Bihar app is currently running. After successful completion of this phase, the app will be moved to the Production phase on the Play Store.
3. • Integrated the Login API in the Taste of Bihar app using Email ID with OTP verification for secure user authentication.
4. • Updated the Profile Section by replacing the email field with the mobile number field and adjusted the UI and functionality accordingly.
5. • Integrated the categories/quick-bytes API in the Taste of Bihar app to display Snack and Drink categories. Implemented functionality to show subcategories, and on tapping a subcategory, the related items are displayed on the screen.
6. • Integrated the Edit Profile API to update user profile details such as image, name, age, and other information.
